

The Way We Make A Broken Heart John Hiatt Key G Duet (F= red)

Just a one more kiss, he'll have to miss, this night with you G D G
Now you're guilty of this secret love as I am too G C D
You'll get used to telling lies G
And feeling sorry when he cries C
Now that the strings are attached he'll catch on, we've done our part C G D D#
'Cause this is the way we make a broken heart Em C D G

Lesson number one, we've just begun to hurt him so G D G
And with lesson two, I'll long for you when lights are low G C D
And we get to lesson three G G7
When he gets down on his knees C
Begs me to stop at the door just before, he comes apart C G D D#
Oh this is the way we make a broken heart Em C D G G7

Well we've laid a trail of tears for him to follow C G
And we've thought of every line that he might swallow C A7 D

And with lesson four there'll be no more for him to bear G D G
And on some dark night we'll dim the lights on this affair G C D
And he'll find somebody new G G7
And she'll likely hurt him too C
'Cause there must be millions just like you and me, practiced in the art C G Bm Em Em7
Oh this is the way we make a broken heart C D G Em

Oh, this is the way we make a broken heart C D G Em
Oh this is the way we make a broken heart C D G
.....alternate singing line to fade
